

# LECTURE SERIES

# PHARMA AND FOOD

universität  
wien

Faculty of Life Sciences

**WINTER TERM 21/22 (580009 SE)** Althanstraße 14  
1090 Wien - UZA II

- |                                    |  |   |
|------------------------------------|--|---|
| <b>Oct 07 2021</b><br>17:15 - HS 5 | <b>Tobias Madl</b><br>Medical University of Graz, Austria            | <b>NMR-Based Metabolomics: What Can it Provide in Pharma and Food Sciences?</b>   |
| <b>Oct 14 2021</b><br>17:15 online | <b>Bernd Roether</b><br>Bionorica SE, Germany                        | <b>Market Channels and Regulatory Pathways for Herbal Medicinal Products - the EU Approach.</b>   |
| <b>Oct 21 2021</b><br>17:15        | <b>Alexander Titz</b><br>HIPS Saarbrücken, Germany                   | <b>Bacterial Lectins as Targets for Therapeutics and Diagnostics.</b>   |
| <b>Oct 28 2021</b><br>17:15 - HS 5 | <b>Günther Klambauer</b><br>Johannes Kepler University Linz, Austria | <b>Deep Learning in Drug Discovery and Design: Representations, Property Prediction, Generative Models and Chemical Reactivity.</b>                       |
| <b>Nov 04 2021</b><br>17:15 online | <b>Ratmir Derda</b><br>University of Alberta, Canada                 | <b>Genetically-Encoded Chemistry in Ligand Discovery.</b>   |
| <b>Nov 11 2021</b><br>17:15 - HS 5 | <b>Antonio Monari</b><br>University of Lorraine, France              | <b>Don't Let Them Bury the Light. Multiscale Methods in Simulating Photobiological Phenomena from Light Matter Interaction to the Biological Outcome.</b> |
| <b>Nov 18 2021</b><br>17:15 - HS 5 | <b>Daniel Krois</b><br>University of Vienna, Austria                 | <b>Trifluoromethylated Oxazoles as Amino Acid and Peptide Analoga.</b>  |
| <b>Nov 25 2021</b><br>17:15 - HS 5 | <b>Daniel Merk</b><br>LMU Munich, Germany                            | <b>Targeting Nuclear Receptors in Neurodegeneration and Beyond.</b>   |
| <b>Dec 02 2021</b><br>17:15 - HS 5 | <b>Simone Moser</b><br>LMU Munich, Germany                           | <b>Phyllobilins - Chlorophyll Breakdown as Source of Bioactive Compounds in Medicinal Plants and Food.</b>  |
| <b>Dec 09 2021</b><br>17:15 - HS 5 | <b>Axel Neffe</b><br>Helmholtz-Zentrum hereon, Germany               | <b>Bioinspired and Bioderived Polymer Systems for Applications in Biomedicine.</b>  |
| <b>Dec 16 2021</b><br>17:15 - HS 5 | <b>Sascha Rohn</b><br>TU Berlin, Germany                             | <b>Functional Food Compounds – Only in Raw Plant Material? Reactivity and Stability of Bioactive Metabolites Along the Whole Value Added Chain.</b>       |
| <b>Jan 13 2022</b><br>17:15 - HS 5 | <b>Volodymyr Korkhov</b><br>ETH Zurich, Switzerland                  | <b>Structure and Function of Membrane Proteins Involved in Signalling.</b>  |
| <b>Jan 20 2022</b><br>17:15 - HS 5 | <b>Andreana Assimopoulou</b><br>University of Thessaloniki, Greece   | <b>Exploring the Potential of Natural Products: A Chemical Engineer's Perspective.</b>  |
