Department of Pharmaceutical Sciences

WINTER TERM 2022/23 (580006 SE)

Josef-Holaubek-Platz 2

1090 Wien - UZA II

Thursday 11:30 - Lecture Hall 4

Faculty of Life Sciences

- | | | |
|---------------------------|--|--|
| 06.10.22
HS 4 | Alexa Klettner
Kiel University (CAU)
Germany | Potential of Marine Polysaccharides
for Medical Application |
| 13.10.22
HS 4 | Dušanka Janežič
University of Primorska
Slovenia | TBC |
| 20.10.22
HS 4 | Marc Nazare
Leibniz Forschungsinstitute for
Molecular Pharmacology (FMP)
Berlin, Germany | Tailoring Chemical Probes Beyond
Simple Small Molecule Ligands |
| 03.11.22
HS 4 | Martin Lepšík
IOCB Prague
Czech Republic | On the Importance of Physically
Correct Models for Describing
Protein/Ion/Ligand Binding |
| 17.11.22
online | Mary Beth Humphrey
University of Oklahoma
United States | Targeting SHIP1 Inhibitors as Novel
Alzheimer's Pharmaceutical Agents |
| 24.11.22
HS 4 | Christian Ducho
Saarland University
Saarbrücken - Germany | Towards Novel Antibacterial Agents |
| 01.12.22
HS 4 | Bonnie Wallace
Birkbeck University
London - United Kingdom | Voltage Gated Sodium Channels as
Targets for Treatment of Neurological
and Cardiovascular Diseases |
| 19.01.23
HS 4 | Marcel Van der Heyden
University Medical Center
Utrecht - Netherlands | Examining Drug-induced Proarrhythmia
in the Canine AV Block Model |
| 26.01.23
HS 4 | Antoine Loquet
European Institute of
Chemistry and Biology (IECB)
Bordeaux - France | Molecular Snapshots of Pathogen Cell
Wall Architecture by Magic-angle
Spinning Nuclear Magnetic Resonance |
